

Fietsen

Touring bike

Fun and easy, comfortable and reliable, the Expedition Sport will carry you around town or down to the park. With a 21-speed twist grip Shimano drivetrain and die-cast alloy "V" brakes, the Expedition Sport is the perfect bike to cruise around or explore the bike path.

- Leisure comfort bike
- Alu-Frame
- 21 gears
- V Brake

Mountain bike 29"

THE "BIG FOOT" MOUNTAIN BIKE

Whether busting down a dirt path or cruising to class, the bike delivers versatility and value. The 29-inch wheels make quick work of rough terrain, and with disc brakes and a tunable suspension fork trail chatter is no obstacle. Combining practicality and performance, the bike features provide a hassle-free transitions from campus to the trail.

- Frame Premium Aluminium
- Gearing with Crankset
2x10-speed 36-22 Teeth, Cassette 11-36
3x9-speed 48-32-22 Teeth, Cassette 11-34
(depends of availability)
- Hydraulic disc brakes, dual piston
- 29" Wheels
- Bottle cage

Carbon Road bike

Smoother is faster. The more comfortable and less fatigued you are at the end of a 4-hour ride, the stronger you will be. Like shocks on a race car, the carbon frames help absorb road impact and keep power planted firmly on the road, and it's still plenty to thrash around in a sprint.

- Carbon frame 9K, 12K and UD carbon fiber
- Gearing Shimano 105, 10sp or 11sp
- Crankset Compact
- Wheels Fulcrum Racing7 or similar

e-Touring bike 28"

The Merida – the classic comfort leisure e-bike. Very low access, comfortable, upright riding position and stable 28" wheels with wide puncture protection tires, exactly the right equipment for your individual mobility. The Merida with the classic elegant frame design in the „retro look“ is for cyclists of all ages equally popular. Three support modes and a powerful battery to provide maximum cycling pleasure.

- User console LCD digital, 3 levels
- Shifting Shimano, 9 speed
- Battery Shimano E6001 500Wh, battery with charger
- Range 70-90 km
- Lights
- Shimano steps motor

e-Mountain bike 29"

The e-MTB is prepared to ride steep slopes without great physical effort. Whether busting down a dirt path or cruising to class, the e-bike delivers versatility and value. The 29-inch wheels make quick work of rough terrain, and with disc brakes and a tunable suspension fork trail chatter is no obstacle.

- 3 support levels
- Frame Premium Aluminium
- 9 Speed
- Battery Shimano 36V, 418 Wh
- Hydraulic disc brake Shimano, dual piston
- 29" Wheels
